

Easy Wall

Portable billboard without horizontal struts

Easy Wall is a "lightweight brother" of systems Niva Plus and Niva Maxi Plus. It uses all advantages of system Niva Plus but with different form of fixing panels to the construction. It does not use the horizontal magnetic struts, but special "small and very strong" magnets that locate exactly where to put a graphic panel. It enables simpler fixing of panels to the construction. Suitable specially for curved systems. By adding of magnetic panels. Different sizes and graphic motives bring many options how to make your presentation unforgettable. Only one person can fold and unfold Pop-up system in a few minutes and use the transportation case as an elegant presentation table during your presentation. System East Wall is standardly sold in blue nylon bag and blue tube, optionally in black transport case which is also suitable for air transportation. Available in two different highs: Easy Wall 208cm and MAXI Easy Wall 230cm.

Maxi Easy Wall
