

Tex Compact

Effective fabric display wall

Niva TexCompact is probably the fastest way how to create effective presentation on the textile. For less than one minute you can built up a presentation wall Tex Compact with graphic area bigger than 5 m². Great advantage of Tex Compact system is the fact that graphic motive is portable in the transport bag directly in the structure. Textile graphic part is immediately strained after unfolding the structure and you receive smooth surface for your presentation. TexCompact is portable in nylon bag.

TexCompact
